Logo Competition And Exhibition For Energy And Sustainable Development

#### Logo theme:

Design a captivating logo for the "Energy and Sustainable Development" theme, illustrating the link between sustainable energy and its developmental impact.

#### **Guidelines:**

- Design Creatively: Craft a unique and engaging logo using symbols, colors, and typography to effectively convey the theme.
- Digital Format: Submit in highresolution JPEG, PNG, or SVG for clarity and versatility.
- Size and Dimensions: Ensure the logo is clear and high-quality in digital form.
- Content Focus:

Clarity and Simplicity: Keep it clear and simple, avoiding unnecessary complexity.

Relevance: Connect the design directly to the theme of energy and sustainable development.

· Originality and Creativity:

Original Work: Use only your original creations to avoid plagiarism.

**Creativity:** Stand out with an innovative approach that leaves a lasting impact.
